DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-7 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are directed to a method or process for calculating an exponentiation via is a purely mathematical algorithm. The claimed subject matter is not limited to a practical application of the mathematical algorithm in the technological arts. Note MPEP 2106.

Claim Rejections - 35 USC § 112

2. Claims 4 and 5 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 4 and 5 the phrase "the step of updating" lacks clear antecedent basis. The last two lines of claims 4 and 5 are mis-descriptive, i.e. "X²" and "Y²" should be "Y²" and "X²", respectively.

Allowable Subject Matter

3. Claims 8 and 9 are allowed.
